

RESPECT

Home Connection Activities

Work with your family to create a home recycling plan. Map out the plan with your family and share it with other teachers and students in your classroom.

Talk with your parents about ways to reuse and rework resources at home. Decide on a plan and then share that with another family or neighbor.

Discuss with your parents how respect should be shown at home. Decide on a list of respectful behaviors for use while in school.

Share with your parents the reasons why differences in people may or may not be accepted by some. Explain to them how it feels to be treated with respect and dignity.

Draw your favorite part of the Respect Rally and tell your parents about it.

WE CONNECTED!

We _____ and talked
about _____ together.

Our favorite part of the story was when _____
_____.

I circled the house above of the activity we completed.

Student: _____ Date: _____

Parent(s): _____ Date: _____
